# Spring

PLANNING

EVERY *Spring*  
BRINGS THE PROMISE  
OF SOMETHING NEW.

*Dear friend,*

Welcome to your Spring Planner.

Spring always feels like a quiet beginning. After the slower rhythm of winter, the days grow longer, the light changes, and our homes naturally begin to shift with the season. It is a time for fresh air through open windows, lighter spaces, and small resets that help everything feel renewed again.

This season invites us to tidy, refresh, and thoughtfully prepare our homes for the months ahead. But with all the inspiration we see online, it can sometimes feel like we are expected to do everything all at once. Decorating, organizing, cleaning, planning gatherings, and keeping up with daily life can quickly start to feel overwhelming.

That is exactly why I created this Spring Planner.

It is a simple space to gather your ideas, plan your decorating, organize your decor, and approach decorating this season with a little more clarity and intention. These are the same pages I use when I prepare my own home for decorating throughout the spring season, and I hope they help you feel inspired without feeling rushed.

Wishing you a fresh,  
peaceful, and inspiring spring  
season.

*Lots of love,  
Brittney*
